

# to do:

## improve my stats in the new year

Village's new coaching program puts you on the Village Varsity Team and focuses on getting **you** more business. This program will help you develop your personal style along with coaching and training components designed to build and even double your business.

We are so confident that the Varsity Team program will bring you success that if you do not double your production in 12 months, we will return your splits!

If you are committed to investing your time and energy into making your business the best it can be, contact your broker to join the team and get a copy of the Village Playbook. The game kicks off January 2011!
