Enhanced Marketing Tools

Market a home with personalized, professional marketing materials:

Listing Flyers: Choose between six different, colorful listing flyer options, three one-sided options and three two-sided options. Once you've inserted your photos and contact information, choose to print to PDF and print in-office or choose to print professionally at our quick local print-shop.

Just Listed and Just Sold Postcards: New Listing? Let your clients know or the area surrounding that listing. Choose from multiple templates, customize with your listing and contact information and then send!

Open House Flag: 6' Nylon Open House flag with heavy-duty stake. Comes with carrying case.

Stick Flags: A great, eco-friendly alternative to balloons, these flags can be used again and again to advertise your open houses in combination with your corrugated open house pointers.

Market yourself with equally stunning marketing materials:

Farming Postcards: Farming cards are a great way to foster new business and keep in touch with past clients. Twelve exciting options to choose from and customize.

email Signatures: Two distinctive options for a custom image email signature. Just choose your option and enter your contact information and beautiful face!

Listing and Buyer Presentations: Ensure your presentations are always current and always professional.

Agent Websites: Village is excited to offer custom content-managed websites to our agents for free. We have developed five unique templates that are customizable to you BY YOU! Simply choose your favorite template and an email will be sent to you within one business day with a username and password to your site - you don't even have to purchase a URL or hosting, but if you have a URL already you want to use, that is great too!
